

IOS MIDTERM INDIVIDUAL PROJECT

資工三 張睿恩

目錄

- 動機
- 功能
- 使用方式
- 部署需求
- Demo影片

動機

想玩看看在iOS下該如何串接AI
正好最近幾次都在用隨機＋卡片
因此正好想到由AI解讀塔羅牌

功能

塔羅牌抽取

能隨機抽取塔羅牌
並選擇不同的塔羅牌陣
根據主題來預測

AI解讀

由 AI 根據不同的
塔羅牌陣解讀每張卡片
並以使用者輸入的主題
進行個性化輸出

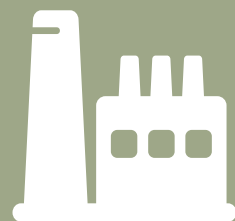

使用方式

選擇對應主題，並輸入細節

將所有的塔羅牌翻面

按下AI解讀，由AI進行分析

部署需求

- OpenAI兼容endpoint
- 修改程式碼對應區塊

OpenAIHelper.swift 83行

```
83     let apiKey =  
        "sk-or-v1-6f66093c4b85b509712c24f62ed6e8e10  
        3f0d773b7637170b721a7220aa870cf"  
84     let service =  
        OpenAIServiceFactory.service(apiKey:  
        apiKey,  
85        overrideBaseUrl: "https://openrouter.ai",  
86        proxyPath: "api",  
87    )
```

- 默認用deepseek v3
- 可在程式碼修改

OpenAIHelper.swift 114行

```
109     let parameters =  
        ChatCompletionParameters(messages: [.init(  
110         role: .system,  
111         content: .text(systemPrompt)), .init(  
112         role: .user,  
113         content: .text(prompt))  
114     ], model:  
        .custom  
        ("deepseek/deepseek-chat-v3-0324:free"))
```

Demo影片

一段使用者演示影片

顯示了一般使用者的預期操作

The background image shows a top-down view of a workspace. A silver laptop is open, showing a black keyboard with white lettering. To the right of the laptop is an orange spiral-bound notebook with a small white character sticker. In the bottom right corner, a white ceramic cup filled with dark coffee sits on a matching saucer. The entire scene is overlaid with geometric shapes: a large olive green shape in the top left corner containing a white grid of dots; a large mustard yellow shape that covers the bottom left and extends towards the center, featuring a thin white circle outline; and a smaller olive green shape in the bottom right corner with a thin white circle outline.

THANKYOU
